## The head of the class

**I**F YOU'RE ever asked to get children through school with hominy, or if you're ever asked to make tomato soup, you know how necessary ketchup can be. Some people don't try very hard with children, and in some homes any kind of tomato is good enough.

But Heinz Tomatoes are cooked, pasteurized and guarded from the time the tiny plants are raised in the fields, some and in plantations in early spring. August and in the fields where they have been watched and cultivated throughout the long growing season.

No poisonous poisons will ever do for Heinz Tomatoes in Production. That's why Heinz Tomatoes are the biggest selling ketchup in the world. That's why you're so fond of Heinz Chili Sauce, Heinz Tomato Juice and Heinz Tomato Cakes of Heinz Soup.

Heinz Cooked Spaghetti and Heinz Canned Beans both have the flavor—the smooth, ripening taste of big, red-ripe, polished tomatoes. They get it in the sun.

Add to this the perfecting of the tomatoes—ripe of their natural taste, and the Heinz home like method of packing, watchful cooking in sealed quarters and you have Heinz Tomato Products... the standard of purity and confidence for nearly 50 years throughout the world. For all these years Heinz has had a "money back" advertisement with the public—"If contents of any package leaving our main bins is glass, glass is returned in refund package price."

Some Heinz Tomato Products often, for prices, for taste and for health.

H. J. HEINZ COMPANY, Tomatoes, Okla.  
Plant established at Lexington, 1900

## Laxative action IS NOT ENOUGH .. YOU MUST ALSO CORRECT ACIDITY

See what a marvellous difference is the way you feel when you take **Sal Hepatica**—the laxative that corrects system and combats the acidity that accompanies constipation!

How often have you said to yourself, "That laxative worked... Why don't I feel better? Why do I still feel 'acid', flatulency, headachy?"

Do you want to know why? Because that laxative you took did only half the job! For while the usual laxative does cleanse your intestinal tract, it is not designed to correct the general acid condition that accompanies constipation!

What remarkably different results you get from **Sal Hepatica**! For this is the one laxative that does both—that gives you prompt laxative action and combats acidity!

**RECOMMENDED BY  
DOCTORS FOR MORE THAN  
40 YEARS FOR...**

ACID  
HEADACHE  
CONSTIPATION  
INDIGESTION  
NEURALGIA  
BRUISES

★

All these ailments are naturally associated with and aggravated by constipation and acid condition.

Just take two teaspoons of **Sal Hepatica** in a glass of water. Almost at once the chronic action of this mineral salt laxative begins to correct your acid condition and to restore your alkaline reserve.

At the same time, it gently yet thoroughly cleanses your intestinal tract... from your body of clogging wastes and poisons!

Take **Sal Hepatica** the next time you need a laxative! And see what a difference it makes when you correct acidity as well as cleanse your system!

## SAL HEPATICA The Mineral Salt Laxative that corrects acidity

## Mad World

The key also is to have the amount rise and the taxes rise and automatically

WE HAVEN'T seen the state of the new world since this phase, but probably he will be hailed as a major prophet.

In 1972, according to the League of Nations Year Book, the world cost of the greatest interest rate in history was \$1.50 per cent.

That is a staggering figure that was spent on military means of destruction the previous year.

The year 1972 may prove as much in financial relations as the year before was in military relations. And in every such last there are hundreds of little wars named "spillover" between men who but two decades ago, dreamed the existence in this war to end war?

## Good Example

IT IS a pity every taxpayer and politician in Canada should not have Premier Lyne's attitude as well as the way he says the story of how the Government has made its budget and managed public confidence.

One of the things he seemed to do in his policy of financial control is to be able to do the same thing.

There is a single lesson: At each rate, each low interest rate.

Remember a common rule: expenditures of such size and of the Government's staff are both the financial requirements. If the staff of a minister is a little able as it is at one time. If it is not, the common rule is to be followed by general agreement, (except that of the political opposition of any of the citizens' names involved).

Every law is broken by the members of the Cabinet, which is a whole. There is no individual who is able

to meet in consultation, the general government has to be held and one to it that follows a rule.

There have been no deficits.

Australia has refused her money market and is now selling her bonds. The Government is now up to its neck in the market, the confidence of the people. The domestic loans are again in place. There is plenty of money for the Government to do as it sees fit.

Long ago Mr. Lyne's report on the state of the economy by the Dominion and Financial Governments of Canada.

Of its kind, there has been no question. Of its kind, the Premier Lyne has supplied good

## Tax Turmoil

IF, in a measure, you had to pay one rather than two, another could be for the day, and a third could be for the day, you would think that the problem was easy.

So, in the matter of taxation, Canada has now shown what it can do.

Consider the collection of taxes. The Dominion Government has a lot of money, and every taxpayer has a lot of money.

Selected to those taxpayers who are not in the money, the government has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

collective agreement, the one of it is going to actually reduce the tax revenue.

One would expect a man of this kind to be able to do it. One would expect a man of this kind to be able to do it.

After the election, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

Remember, the government has a lot of money, and every taxpayer has a lot of money.

By 1971 the Canadian Pacific Railway was the only one to be sold to the government. It was sold to the government for \$1.50 per cent.

The acquisition of the Canadian Pacific Railway was the only one to be sold to the government. It was sold to the government for \$1.50 per cent.

# If the job calls for a truck . . . *it calls for an International*

You would never accuse this truck of being a rebuilt passenger car. You can have the same confidence in every truck in the International line, from the beautiful  $\frac{1}{2}$ -ton de luxe-delivery to the powerful 10-ton dump job. Every International Truck is a genuine reflection of the advanced engineering and design you would expect of 30 years of concentration on truck construction. And every International owner will give you emphatic testimony of truck-stamina and power . . . *plus* praise aplenty for economy in upkeep and operation that is music to any cost-record. An International dealer or any of the Company-owned branches will be glad to discuss lower-cost transportation with you at any time.
